BUS, POLICE CAR AND STUDENT IN HIGHWAY CRASH

A state police car, a Greyhound bus and an automobile operated by a Gettysburg college student were involved in an accident at 4:20 o'clock Thursday afternoon on the Lincoln highway three and a half miles east of Gettysburg, according to a state police report.

Sgt. Joseph E. Temple, in charge of the Gettysburg substation, said a police car operated by Pfc. David K. James, 32, traveling toward Gettysburg, had pulled into the center lane of the three-lane highway alongside a car operated by Erik Morch Hansen, 18, of Bronxville, N. Y., the college student.

James, according to the report, signalled Hansen to pull over to the side of the highway for a routine check. The Greyhound bus, also traveling west, apparently believing that the state police car was about to make a left turn, attempted to cut between James and Hansen.

Driver Lacked License

The right rear fender and right door of the police car was struck, and the bus damaged the front and rear fenders on the left side of the Hansen car. Damage to the police car and the Hansen car was estimated at \$50 each and to the bus at \$25.

Sgt. Temple said the bus was being operated by Earl Kline Davis, 28, of Philadelphia, who will be charged before Justice of the Peace Robert P. Bell, Gettysburg R. 4, with failure to have a Pennsylvania operator's license. James said Davis had been employed by the Greyhound company only two months and was operating the Philadelphia-to-Gettysburg bus as an "extra" driver. He had a Maryland operator's license but no Pennsylvania license, he said. No one was injured.

ACCIDENT TOLL UP FOR JANUARY, POLICE REPORT

More accidents were investigated by state police of the Gettysburg substation last month than in January a year ago, and double the number of persons were injured, but the property damage was less, according to the monthly accident report compiled by Sgt. Joseph E. Temple, in charge of the substation.

Sgt. Temple reported that there were 16 accidents last month, compared with six in the same month a year ago. Property damage in January amounted to \$7,150, compared with \$8,763 in January, 1950.

There were no fatalities in either month or in December, 1950, but the latter month had more accidents, 29, more persons injured, 17, and property damage was \$11,265.

Fast Driving Chief Cause

Monday led in the number of accidents during January, with six. Other days of the week showed the following: Tuesdays, 3; Wednesdays, 3; Thursdays, 0; Fridays, 1; Saturdays, 2, and Sundays, 1. Driving too fast was a major cause of accidents, Sgt. Temple said.

During the month police of the local substation spent 219 hours on criminal investigations; 1,155 hours on traffic work; 1,145 hours on station assignment and 395 hours on (Continued on Page 2)

Groundhog Sees More Winter Ahead

Adams county's prognosticating groundhog emerged from the Beard Lot today, muttered something about the noise of new tenants and headed for new quarters in Mt. Newman.

Enroute it sniffed the air, glared at the sun and prepared to hibernate six more weeks. "It's gonna be a cold, cold, winter" said the groundhog before beginning to snore gently as it curled up in its new home.

The weather bureau bore out the findings of the Adams county, Punxsutawney and Quarryville groundhogs. Another cold wave is bearing down on Pennsylvania. The temperatures tonight are to go from zero in the east to 10 below in the west. Adams county, it was noted, was about half way between east and west.

MOOSE GIVES \$75 FOR PROJECTOR AT COUNTY HOME

A donation of \$75 towards the purchase of a motion picture projector for the county home was voted by the Gettysburg Moose lodge at its meeting in the Moose home, York street, Thursday night.

The Rev. John Fry, representative of the Moose lodge on the county home auxiliary, told of the work of the auxiliary and its hope to raise sufficient funds to buy a projector to show movies to the residents of the home. At the present time, in order to show movies there the auxiliary has to arrange to borrow a projector and screen from organizations owning such equipment, he said. He added that the auxiliary hopes in time to be able to present movies about once a week for the county home residents.

The Moose lodge also voted to sponsor a midget baseball team and to give the ballroom over for the use of the Woman's club of Gettysburg for a card party on the first Monday in April.

List New Members

A \$10 donation to the Pennsylvania Association of the Blind was voted.

Accepted as new members were Stuart Hetrick, Littlestown; Donald E. Doersom, Gettysburg R. D., and John L. Clapsaddle, Orrtanna. Membership now is approximately 1900, Charles L. Lauver, secretary of the lodge, reported.

Governor Stephen C. Smith, who presided, reported plans for an oyster supper to be held for the membership at a date to be announced. He also reported that the regular meeting of District No. 1, Eastern Division, Pennsylvania Moose association, will be held Sunday afternoon at Hanover.

Robert Neary and C. Lester Oyler were named delegates from the Gettysburg lodge to the district meeting. Governor Smith urged members to attend the district meeting.

FIRE CHIEFS OF COUNTY GATHER HERE THURSDAY

Members of the recently formed Adams County Association of Fire Chiefs met Thursday night at the fire engine house, East Middle street, heard a report of its by-laws committee, discussed a county-wide short wave radio setup and saw a new Fire Underwriters movie, "Fire on the Farm." John Murren, Centennial, the president, presided, with 24 fire chiefs, assistant chiefs and fire marshals in attendance.

Burgess William G. Weaver, who is also president of the Gettysburg Fire company, deputy civilian defense coordinator and an honorary member of the chiefs association, presented the report of the by-laws committee.

The report recommended two types of membership, active and honorary, with the latter also divided into two classifications, honorary memberships for those who have performed a service or services to the county fire companies or the association, and honorary memberships for former active members who no longer hold offices such as fire chief, entitling them to active membership.

Fix Dues At \$5

It was proposed that the annual dues for active members be \$5, to be paid by the fire companies they represent, and dues of \$1 a year for honorary members.

The proposed by-laws provide for the nomination of a president, vice president and a secretary-treasurer in January of each year, and the (Continued on Page 2)

DELAY START OF HEART CAMPAIGN IN THIS COUNTY

The annual appeal for funds for the Pennsylvania Heart association began throughout the state Thursday — but locally the drive will not begin until early next week.

Members of the board of the Adams County Heart association are to meet Monday at the Hotel Gettysburg to draw up plans for the current campaign during which the group hopes to raise upwards of \$3,000 for the heart fund.

Experience in the drive over the past few years indicated that the county will probably reach a goal of \$3,000 this year. The first drive, three years ago brought in \$400. The second, two years ago secured \$1,100 and the drive last year raised \$2,150.

Following custom, the county association will place money containers in various business places throughout the county where individuals may place their donations.

Or those who prefer to send their contribution by mail need simply address the envelopes "Heart — Care of Local Postmaster." The postmaster will forward the contributions to the nearest heart fund center.

VERDICT ENDS COURT DECISION

Doris Marie Glessner and Charles W. Glessner, Shippensburg, were awarded damages by an Adams county jury Thursday afternoon in the final trial for the January term of Adams county court.

The jury found in favor of Mrs. Glessner in the sum of \$150.75 and in favor of Mr. Glessner in the sum of \$674, and against the defendants, Rudy Koser, Middletown, and R. W. Knox, Gettysburg R. D.

Retiring at 4 o'clock Thursday afternoon to consider its verdict, the jury returned again about 5:30 with an incomplete verdict. The verdict was molded by the court to be in conformity with accepted practice and the jury returned again at 5:45 o'clock with the final verdict.

The case resulted from an accident two years ago near Caledonia when a car owned by Knox and driven by Koser collided with a car driven by Mrs. Glessner at the beginning of the new four lane highway at Caledonia. When the accident occurred only two lanes had been completed and two lanes of the road were blocked off by a barricade.

The traditional cooking schools, sponsored annually by The Gettysburg Times, will be staged again this year in three Adams county communities, it was announced today.

Mrs. Mabel Bowen, popular home economics specialist, has signed a contract to act as the demonstrator again this year for the three schools.

The second school will be presented in Biglerville on May 17 and 18 and the third and concluding school will be presented in Gettysburg May 22, 23 and 24. All sessions of the three schools will be conducted in the evening.

As in the past there is no admission fee for any of the school sessions. Everything is free. Baskets of food and other prizes will be awarded at all three schools.

Mrs. Bowen will demonstrate new methods of preparing food, economical uses of food and ways to conserve and serve food.

Heaviest Atomic Blast Shakes Las Vegas Like An Earthquake

Las Vegas, Nev., Feb. 2 (AP)—Concussion from another atomic blast some 75 miles away hit this southern Nevada city today with the force of an earthquake.

It shattered a glass window in a downtown department store and brought a flood of calls from alarmed citizens to police.

One observer on a downtown street said:

"Windows in the big stores bulged in and out like balloons. I thought they were all going to go."

It was the first damage reported here in the series of shocks.

The fourth atomic flash in less than a week lit up the pre-dawn sky with noontime brilliance and was visible in a radius of more than 400 miles throughout the west. It was reported seen as far away as the San Francisco bay area.

Brilliance of the light and the force of the explosion, which rocked downtown buildings, touched off new speculation about what the Atomic Energy Commission is testing at its big new range in the desolate desert northwest of here.

The AEC, as customary, confined itself to confirming that a test had taken place.

Most witnesses agreed that today's concussion came in three waves—a small one, then two with stiff, jolting punches.

As dawn broke, darkish brown clouds were visible in the clear morning air in the direction of the range. They were stretched widely across the horizon in a sort of cirrus pattern. Both the flash and the concussion today seemed to last longer than in either of the three previous tests.

It took the concussion six minutes to reach here, after a brilliant orange-yellow flash lit the northwestern skies, etching buildings in this gambling resort town and the mountains which ring it.

Rail Strike Brings Embargo On Some Mail Matter Here

An embargo was placed on mail received for shipment from the Gettysburg post office today as a result of the walkout of trainmen and switchmen in the nation's major rail centers, but Postmaster Lawrence E. Oyler said Gettysburg will fare better during the embargo than most cities because it is served by star routes and the highway post office instead of the railroads.

The post office here, Mr. Oyler said, can accept, beginning today, only first class mail weighing eight ounces or less, and daily newspapers, with several exceptions.

Medicines, drugs, surgical instruments and surgical dressings and all air mail and air mail parcel post will continue to be accepted for shipment to all points.

Mail of all classes will be accepted for Baltimore or Harrisburg, and to points on the highway postoffice route.

All classes of mail will be accepted for shipment to points in the following states: Maine, New Hampshire, Rhode Island, Ohio, Michigan, Vermont, Connecticut, Indiana and Massachusetts.

All classes of mail will be accepted for points in New York state except New York city and vicinity; for all of New Jersey except Trenton and vicinity and all of Pennsylvania except Philadelphia and vicinity.

The highway post office covers points between Lancaster and Harrisburg by way of Gettysburg and Chambersburg, including York, Hanover and Littlestown. Mail for Pittsburgh and the western part of the state goes from Gettysburg to Harrisburg for shipment, Mr. Oyler said.

The Rev. Robert D. Hershey, graduate of Gettysburg college and former instructor in English Bible there, now pastor of the Lutheran Church of the Holy Communion, Philadelphia, has written his first book, "The Secret of God," in which he discusses the fundamental truths of Christianity. It is being published just prior to the opening of the Lenten season by the Muhlenberg Press.

COUNTY HOME AUXILIARY HAS 54 MEMBERS

Membership in the Adams County Home auxiliary now totals 54, Miss Margaret McMillan, membership chairman, reported Thursday afternoon at the regular meeting of the auxiliary at the county home.

During the last month, letters were sent to 73 home economics groups, fire departments and men's and women's civic groups, Miss McMillan said. Up to the meeting time 10 additional organizations had named representatives to the group. Membership now totals 30 organizations and 24 individual memberships. The organization is open to both memberships by organizations and by individuals, Miss McMillan noted.

Mrs. Hope Morgan, Cashtown, chairman of the committee seeking volunteers to read to persons at the county home who cannot read for themselves because of illness or blindness, reported that so far 20 persons have volunteered to carry on the work in addition to a number of college students who are volunteering their work under a program of the student Christian association. She said a schedule is being worked out for the readers.

Plan Regular Movies

E. Donald Scott was thanked for providing a truck to deliver a piano and chair to the county home. Both had been donated by countians for use in the home.

Mrs. William K. Jundermeyer, movie program chairman, reported that sufficient organizations had pledged to present movies to permit a schedule of movies every other week at the county home from the present month through May. She added that it is hoped enough additional groups will volunteer to sponsor movie shows at the home to provide such a program weekly. Members of the auxiliary agreed to be present on movie nights to help the county home residents from their quarters to the room where the movies will be shown.

A committee comprising H. T. Stauffer and M. P. Hartzell was appointed by President Richard Summer to determine the need of rearrangement or procurement of new furniture for the rooms of the residents at the home. The hope of the auxiliary, it was pointed out, is to make the rooms "more homelike" by providing small tables or similar articles of furniture where needed.

The next meeting of the auxiliary will be held at the county home March 8.

Gas Users Asked To Reduce Consumption

Gettysburg gas consumers were asked today by the local office of the Manufacturers Light and Heat company to conserve on the usage of gas.

Julian Estep, local manager, pointed out that the local supply is good and the request is made particularly to large commercial consumers.

Severe cold weather in the Louisiana-Texas area has made it difficult for the pipe lines to maintain the normal supply to this area. Closing of spare rooms, reducing temperatures and any other means of curtailing the use of gas is requested during the period of extreme cold weather. The company is attempting to allocate the supply of gas to sections as the cold wave moves across the nation.

Tank-led UN Forces Push On But Reds Counterattack

Tokyo, Saturday, Feb. 3 (AP)—Tank-led Allied assault forces advanced through thick fog Friday night to points north of Anyang, which is only eight and one-half miles south of Red-held Seoul.

Two to two and one-half miles south of Anyang, however, two companies of Chinese Communists (possibly 400 men) counterattacking at 10 p.m. and still were fighting at midnight.

No details were available on this relatively small Red effort to check the United Nations drive which has gained about 20 miles since it began Jan. 25. Enemy opposition has been slackening daily.

Advance patrols of the Allies have been reported only seven miles from Seoul.

Heavier Forces Move Up

Heavier forces are moving up cautiously, wary against flank attacks which are the favorite Red tactics.

An Eighth Army spokesman estimated that 6,650 Chinese and North Korean Communists had been killed by ground action between Jan. 25 and 31. Air reports listed casualties for that period at 1,442, but some may be duplications.

Even so, there was a difference of military opinion as to whether the Allies have cracked the main enemy defenses, despite notable losses in manpower and shrinking morale among the Reds.

Talk About 38th Parallel

In Washington there were reports that high officials have decided U.N. troops should stop at parallel 38, presumably pending further efforts toward political settlement of the conflict. An Eighth Army spokesman declined to confirm or deny the Washington report.

Chopped up are the Chinese 50th and 38th Armies. Resistance has slackened even though the Communists 39th and 40th Armies are in immediate reserve. Allied commanders said.

Reliable sources said the ghastly threat of typhus had made its appearance among North Korean troops, and that tuberculosis, trench foot, frostbite and other wartime diseases likewise were taking a toll among the Chinese allies.

Typhus Hits Enemy

Prisoners of war said 50 to 100 per cent of some North Korean companies are infected with typhus, a disease transmitted by vermin from rats. However, U. S. Eighth Army investigators said there was (Continued on Page 2)

Many Reasons For Smoking Fireplaces

Smoking fireplaces may be the result of any one of a number of conditions. The flue may be clogged or it may not be large enough to provide sufficient draft. A poorly constructed throat or wind shelf is another cause of trouble. The depth of a fireplace should not be less than 16 inches and the width and height of opening properly proportioned. Last but not least, the chimney should extend at least two feet above the highest point of roof and care should be taken that no large trees of tall buildings are sufficiently close to cause down currents of air at the chimneys.

Notice To Gas Users

Due to unusual severe cold weather in the Louisiana-Texas area all major pipe lines have been unable to maintain the supply of natural gas to this area. Cold weather here has further aggravated the situation. Major industries have cut the use of gas to an absolute minimum. The Gas company is now asking everyone to reduce his use of gas by closing off spare rooms, reducing temperatures or by any other possible means during the period of extreme cold weather.

BULLETS GAIN EASY VICTORY OVER TARTANS

Carnegie Tech's highly touted basketball team failed to impress local fans here Thursday evening as the Gettysburg college Bullets completely outclassed the Tartans to gain an easy 79-55 decision.

In registering their sixth win against five reverses, the Bullets held a commanding lead throughout, trailing only in the opening seconds when Craig opened the scoring for the victors with a layup.

The visitors' early lead was quickly erased on a long toss by Belber and shorter tosses by O'Brien and a pair by Coder.

Coach Bream's lads played a fine game in the first period and rolled up a 17-6 lead at the quarter. The Tartans could not solve the tight defense of the Bullets while the Bream-men found the westerners' defense easy to puncture.

Late in the second period the Bullets ran their margin to 31-12 and then Tech put on its "best" offense of the evening with seven straight points. At half time Gettysburg led 34-19.

Mostly Foul Shooting
The second half was a wild and woolly affair and was marked by considerable rough play. Whistle-blowing, much of which was justified, gave the spectators an almost continuous exhibition of foul tossing.

There were a total of 68 personal fouls called during the evening, most in the second half. The Tartans lost five men via fouls late in the game. Tech's pressing tactics contributed heavily to the fouling. In the final quarter there were no less than 40 free throws attempted by the two teams, 22 by Gettysburg and 18 by the Tartans.

The Bullets will journey to Allentown Saturday where they meet the unpredictable Muhlenberg cagers. Clyde Cole's Bullets wrestlers tangle with the Muhlenberg matmen as a preliminary feature.

Carlisle Dribblers Here This Evening

Another pair of victory-hungry basketball teams, Carlisle and Gettysburg high school, will meet this evening on the high school floor in the first game of the second half South Penn league schedule.

Carlisle snapped a six-game losing streak by defeating Carson Long Institute Tuesday night. On the same night the Warriors lost their sixth straight at McSherrystown.

Tonight's opponents finished their first half league campaign in a deadlock for the cellar. The game offers the Warriors their best chance for a victory in a long time.

At 6:45 o'clock the reserve teams will clash.

Sports Roundup

By HUGH FULLERTON, JR.

New York, Feb. 2 (AP)—The novelty has worn off basketball "Battles of Giants" since so many college coaches have decided any boy under six feet is too small. . . So it is a refreshing change to have Milt Gralla, Tulsa U. tubthumper, check in with the antithesis. . . Milt is ballyhooing the contest between a pair of five-foot-eight "little" guys, Neil "Pigmy" Ridley and Gene "Squeaky" Melchiorre, when Tulsa plays Bradley February 24. . . Both were good enough to make the All-Missouri Valley conference team last season and that's about as tough a court league as you'll find anywhere. . .

Mayor Milton Gibbons of Tuckahoe, N. Y., has designated February 5 as Al Carapella Day in honor of the U. of Miami's All-America defensive tackle, who hails from Tuckahoe. . . Now let's hear who the mayor of Miami will pick. . . Jud Millholl, who holds all Ohio Wesleyan U. basketball scoring marks, besides being president of the student body and of his fraternity, is interested in playing pro basketball if he can combine it with studying medicine.

FROZEN OUT
A popular topic of conversation among Pennsylvania basketball followers is whether Penn State Coach Elmer Gross will again resort to "deep freeze" tactics in Saturday's return game against Bucknell. . . That first contest (with a 5-3 half-time score) drew a flood of protests, even from Penn State alumni. . . but the unkindest cut came during a recent boxing match against Catholic U. . . A couple of Fancy Dan boxers waited through one round and were started the second when a student in the front row sighed audibly: "Well, here it is again—the deep freeze."

SHORTS AND SHELLS
The Phillies' Mike Goliath, who has tried both, argues: "Basketball officiating is a cinch compared to playing second base. . . Maybe they should send him to Arizona. . . Bill Fessler, Missouri U. sophomore, ought to get some sort of prize for versatility in track meets. He runs the hurdles, a mile relay leg and puts the shot—Bob Kof, Southern California whiz, once was catcher for Bill Hoelt, the Oshkosh, Wis., lad who turned down a reported \$65,000 bonus from the Tigers to become an ordinary minor league hurler.

BASEBALL HAS BIG WEEK-END ON SCHEDULE

New York, Feb. 2 (AP)—Baseball's greatest living players, headed by the great Ty Cobb and Rogers Hornsby, took over the town today as the National league celebrated its 75th birthday at the Broadway Central hotel.

Ceremonies will be held in front of the hotel, when the circuit was born on Feb. 7, 1876. Ford Frick, president of the league, was to act as a master of ceremonies and his initial chore was the reading of a message of greeting and congratulations from President Truman.

Mayor Vincent Impellitteri was to be on hand to make a dedication speech and unveil a plaque sponsored by the New York State Historical association.

The birthday party will set in motion a whirl of events lasting over the week-end that promises to close the off season in a blaze of action.

Annual Meetings
Tomorrow the club owners of the National and American league will hold their annual February meeting, separately. On Sunday, some 1,400 guests, including Commissioner Albert B. Chandler will attend the 28th dinner of the New York chapter of the Baseball Writers association.

Chandler is scheduled to deliver a speech at the Writers festival. It is assumed the commissioner probably will be available at the league meetings. It is doubtful whether there will be a joint session, since the agenda does not call for one.

However the four man committee, appointed by the two leagues following Chandler's repudiation last December to screen possible successors to Happy, may request a special meeting of the 16 club owners. The committee consists of Del Webb, of the New York Yankees; Ellis Ryan, of the Cleveland Indians; Lou Perini, of the Boston Braves, and Phil Wrigley, of the Chicago Cubs. They may make a preliminary report on their work.

The commission said in Boston last night he hopes for "fair play in the American tradition" in his dispute with the clubowners.

RICHEST STAKE RACE ON CARD AT SANTA ANITA

Arcadia, Calif., Feb. 2 (AP)—Money may not be everything but it will be the most important feature of all when Santa Anita maturity is staged tomorrow for a purse of more than \$200,000.

Shooting at the golden target, the richest in the history of horse racing, will be the finest field of four-year-olds which can get up to the post out here.

It all goes according to pattern when entries are formally made today, the Army will include Alfred G. Vanderbilt's favored entry, Next Move and Bed O'Roses, the King Ranch's Beau Max, Thomas G. Benson's Lotowhite, James N. Crofton's Billy, Special Touch, and Sudan, Blue Reading, Akimbo, Great Circle, Last Round and Grandfather.

11 Horses Entered

If 11 parade to the post late tomorrow afternoon, along about 7:35 eastern standard time, the gross value of the race will be \$205,700, and the winner will net either \$144,325 or \$134,700.

The mile and one-quarter event carries a purse structure that varies according to several factors, such as special awards to California breeders whose products land in the money.

In any event, the money awards will top the previous high marks in turf annals for a single race—the \$146,320 gross value of the 1946 Santa Anita handicap, and the net \$108,400 won by Azucar in the inaugural Santa Anita handicap in 1935.

The Vanderbilt entry figures to be

RICHEST STAKE RACE ON CARD AT SANTA ANITA

Arcadia, Calif., Feb. 2 (AP)—Money may not be everything but it will be the most important feature of all when Santa Anita maturity is staged tomorrow for a purse of more than \$200,000.

Shooting at the golden target, the richest in the history of horse racing, will be the finest field of four-year-olds which can get up to the post out here.

It all goes according to pattern when entries are formally made today, the Army will include Alfred G. Vanderbilt's favored entry, Next Move and Bed O'Roses, the King Ranch's Beau Max, Thomas G. Benson's Lotowhite, James N. Crofton's Billy, Special Touch, and Sudan, Blue Reading, Akimbo, Great Circle, Last Round and Grandfather.

11 Horses Entered

If 11 parade to the post late tomorrow afternoon, along about 7:35 eastern standard time, the gross value of the race will be \$205,700, and the winner will net either \$144,325 or \$134,700.

The mile and one-quarter event carries a purse structure that varies according to several factors, such as special awards to California breeders whose products land in the money.

In any event, the money awards will top the previous high marks in turf annals for a single race—the \$146,320 gross value of the 1946 Santa Anita handicap, and the net \$108,400 won by Azucar in the inaugural Santa Anita handicap in 1935.

The Vanderbilt entry figures to be

the choice of a crowd expected to number 50,000 or more, with Beau Max probably the next in public fancy. Next Move is high weight at 121 pounds, Special Touch net at 117, Lotowhite 116, Bed O'Roses 110, and the remainder get in at 110.

By GEORGE MATTHEW ADAMS

THE MAGIC OF THE DAY

Every day of our lives is the celebration of a miracle! And each one is unique. With what joy we should awake into each new one, empowered with vision and wonder.

One of the most inspiring little books in my library is one that was published nearly twenty years ago, written by the late Dr. John Finley, one of America's great educators and editors, of late years with the New York Times. The little book was called "The Mystery of the Mind's Desire," and I quote this inspiring sentence:

"To be seeing the world made new every morning, as if it were the morning of the first day, and then to make the most of it for the individual soul as if each were the last day—the daily curriculum of the mind's desire."

Consider the constant communication of the sounds, forces, and intermingling of endless chemicals and elements that compose all nature, from the canopy of the stars to the hidden heart of the earth, and how full of wonder is the breaking of the first daily ray of light into our consciousness, and with the message that a new day has arrived!

Never did the Infinite God mean for any of his creatures upon this earth to awake into a new day, shadowed with fears and forebodings. His supreme gift to all was meant to be happiness. How far the world has wandered from that primitive ideal! To man he gave a perfect garden, and now he is turning it into a battlefield.

The magic of the new day, however, remains the same. There are greater forces working in the world, of which we know next to nothing. Through faith and prayer man may still hope for redemption. The evil designs of earth's enemies cannot wipe out one single ray of the morning sun, nor blot out the glow of a single star. God's government is endless!

Tomorrow Mr. Adams will talk on the subject: "Garden of the Mind." Presented, 1951, by The George Matthew Adams Service

GROUND HOG STORY

Should the ground hog, with sleeping, From his bed this day come creeping And see something gray behind him, 'This his shadow to remind him Back to bed he should be going; There'll be six weeks more of snowing.

Be this fact or just a fable, To discover I'm not able, I've no proofs that can uphold me— 'Tis a tale my grandsire told me— And a love of truth controlled him. It is what his grandsire told him.

Though with scorn the wise may greet it, To the children I repeat it. Gospel true it be, or not, it is the story as I got it. Ground hog, shadow, seen together: Six weeks more of winter weather. Copyright, 1951, Edgar A. Guest

The Archbishop of Canterbury, conducting the principal service at Westminster Abbey, pointed to the late ruler's home life in the course of an eloquent tribute and urged the nation to make marriage a more stable institution.

"While marriage is becoming to be regarded with so much recklessness and frivolity," he said, "remember the home life of King George and keep your homes pure and stable."

SAYS HUNDREDS DIE FROM SMOG

New York, Feb. 2 (AP)—Smogs are killing hundreds of Americans in dirty cities each year, Dr. Clarence A. Mills of the University of Cincinnati declared Thursday.

The fog-bound dirt and fumes in the air push people with lung and heart diseases "across death's threshold," he told the American Meteorological society.

A study of 60 smoggy days in 1947-49 in Los Angeles showed 335 excess deaths from these diseases, compared with the average death rate on cleaner days, Dr. Mills said in a paper to be read for him at the society's 109th national meeting (in the Hotel New Yorker).

Chicago studies earlier showed there were "700 excess deaths annually above what would have occurred if the death rates of the cleaner suburbs could have been made to prevail over the dirty districts." In Cleveland he found 250 extra deaths a year in dirtier areas, and about 100 in Cincinnati.

The Los Angeles smogs irritate eyes but they don't start fatal attacks of diseases in people who are well, Dr. Mills said.

"The inference is rather that smog irritants so increase respira-

THE MIGHTY WORKER

Mark 5:21-24, 38-43

Memory selection: Jesus said, Fear not, only believe.—Mark 5:36

The memory selection presents two spiritual factors which are powerful in determining the course and the quality of life. They are faith and fear. Both are found in all areas of life, but here we are chiefly

considering them in the sphere of the religious.

Jairus' Daughter

After a visit to the far shore of the Sea of Galilee, where he wrought a remarkable miracle, Jesus returned to Capernaum where He was greeted by a crowd. He had scarcely arrived before He was called upon again to exercise His unusual power. He had

healed a man with an "unclean spirit"; He had quieted a tempest on the sea; now He was asked to restore a child to life.

It was Jairus, the father of the child, who requested it. He happened to be a Jew of high position and popular, but in the extremity of his grief, he became a distressed suppliant falling at the feet of Jesus. Then it was that Jesus said, "Be not fearful, only believe." The child was brought back to life. Always the Mighty Worker required faith before He performed the many miracles recorded.

"Be Not Fearful"

What do we think about fear? Some fears, if controlled, are whole-

some. For instance, a dread of fire makes one cautious. So it is with sickness. Fear of it makes one careful to observe the rules of health. The harm comes when caution leads to anxiety, and anxiety develops into a state of worry. It was of such a condition Jesus was thinking when He said in His great sermon, "Be not anxious."

But we find many passages in the Bible where prophets and apostles alike exhort their hearers to "Fear God." There are two kinds of fear: the lower and the higher fear; the bare and the noble fear. The one is fear of punishment, the other fear mingled with love. In beginning his explanation of nearly all the Com-

mandments, Martin Luther said, "We should so fear and love God" and then went on with his interpretation. He referred to the fear of offending God who is loved, and not the fear of punishments that might follow. A child may hesitate to offend the parent because he does not wish to hurt the feelings of one whom he dearly loves. That is a combination of true fear and love. Someone has put it this way: "Slavish fear is afraid God will come; child-like fear is afraid He will go away." It was the lower fear Jesus told Jairus to put aside, and to help the nobler fear, based on love and trust. Our generation is giving much (Continued on Page 8)

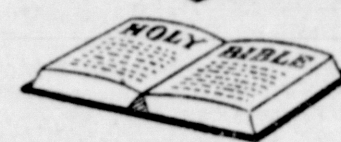

HOUR OF DECISION...

For a certain proud young father, this is a red letter day, and rightfully so! Certainly few events in his life hold greater significance for man than the hour when at last he beholds his first-born, a tiny, fragile, human being, but just then the most important person on earth.

But on such a day the new father should pause for a moment of serious reflection. The new arrival is a challenge and a grave responsibility.

Will Dad conscientiously attempt to establish a pattern of life exemplifying Christ's teachings, which his child may accept as a model? Or will the youngster be forced to make his own search for God?

Bring your little one to God's House. Here he will learn of the Heavenly Father and His wondrous love. Here is priceless training for character building, and a fruitful, satisfying life.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Sunday School Lesson

(Continued from Page 6)

thought to the harm senseless fear can do in all areas of life.

"But Believe"

Jesus accomplished his miracles in the atmosphere of faith, so He retained in His presence only a few of His closet disciples and the father of the lifeless child, Jairus had already shown his confidence in what Jesus could do by coming to Him in his extreme sorrow. Now he was urged to put aside any possible fear, and only believe.

Because of the father's faith, and His own compassion, Jesus restored the dead child. In all spheres of life faith in God's is a powerful force and influence. The evidences are numerous. Read (in Hebrew II) Paul's category of great achievements "by faith" of men and women who put their trust in God. Reflect also, how important a part faith plays in all human affairs. Physicians know that many illnesses

stem from the mind and imagination, and not the body. And such can be healed by faith and strong resolutions. And, in everyday life, consider how much is done by faith, and not by knowledge. Great enterprises are undertaken, and they succeed because someone believed they would, and worked on in that belief.

The fruits of a living faith are found everywhere in God's world. Especially are they noted in the field of the spiritual. And that is what matters most. Here Jesus is indeed the mighty and compassionate worker. Consequently, our faith in Him should be abiding. Listen to the poet, Whittier:

"I know not where His islands lift
Their fringed palms in air;
I only know I cannot drift
Beyond His love and care."

Questions on the S. S. Lesson

1. What two factors are apparent?
2. Who was in distress?
3. What did Jesus require?
4. Where does faith appear?
5. Can fear affect the body?

Answers

1. Faith and fear.
2. Jairus, a Jewish leader.
3. Faith.
4. In all spheres of life.
5. Yes.
